

Testing Lab:	TVMDL - College Station	Client:	Walden Pond Animal Hospital
Case Coordinator:	Carlos Rodriguez		P.O. Box 67
Date Received:	12/05/2019		Headland , AL 36345
Report Date:	12/09/2019	Owner:	Caelum Parvum Farms

FINAL REPORT

Medical History

Medical history not received.

Animal ID: **Perserverance :: Patience :: Vlyth :: Andromna :: Fairy :: Willow :: Augusta :: Polaris :: Sid :: Habinger :: Lambert :: RB :: Elation :: Aston :: Lady :: JB** Domestic Goat :: NFS

Serology

Test: Small Ruminant Lentivirus (cELISA)

Animals::Specimens	Collection Date	Result	Value
Perserverance :: Serum	12/03/2019	Negative	1.350
Patience :: Serum	12/03/2019	Negative	1.718
Vlyth :: Serum	12/03/2019	Negative	5.153
Andromna :: Serum	12/03/2019	Negative	1.350
Fairy :: Serum	12/03/2019	Negative	-0.245
Willow :: Serum	12/03/2019	Negative	0.368
Augusta :: Serum	12/03/2019	Negative	0.982
Polaris :: Serum	12/03/2019	Negative	0.123
Sid :: Serum	12/03/2019	Negative	2.209
Habinger :: Serum	12/03/2019	Negative	1.350
Lambert :: Serum	12/03/2019	Negative	12.147
RB :: Serum	12/03/2019	Negative	3.558
Elation :: Serum	12/03/2019	Negative	3.681
Aston :: Serum	12/03/2019	Negative	-1.595
Lady :: Serum	12/03/2019	Negative	3.804
JB :: Serum	12/03/2019	Negative	1.977

The VMRD Small Ruminant Lentivirus cELISA detects antibodies against caprine arthritis encephalitis virus (CAEV) in goats or ovine progressive pneumonia virus (OPPV) in sheep. The cut-off values for this test are as follows:

Negative: % Inhibition < 35%

Positive: % Inhibition >= 35%

Authorized by: Carlos Rodriguez
Serology Assistant Section Head

Test: Small Ruminant Lentivirus (cELISA)

Animals::Specimens	Collection Date	Result	Value
Carter :: Serum	01/07/2020	Negative	3.547
Xavier :: Serum	01/07/2020	Negative	4.577
Justice :: Serum	01/07/2020	Negative	2.288
Ayala :: Serum	01/07/2020	Negative	-2.288
Antares :: Serum	01/07/2020	Negative	7.323
Beauty :: Serum	01/07/2020	Negative	3.432
Niagra :: Serum	01/07/2020	Negative	1.602
Inheritance :: Serum	01/07/2020	Negative	11.098
Katarina :: Serum	01/07/2020	Negative	8.810
Noelle :: Serum	01/07/2020	Negative	1.030
Rapids :: Serum	01/07/2020	Negative	-3.318
Anemone :: Serum	01/07/2020	Negative	2.059
Eressea :: Serum	01/07/2020	Negative	4.691
Eudril :: Serum	01/07/2020	Negative	7.208

The VMRD Small Ruminant Lentivirus cELISA detects antibodies against caprine arthritis encephalitis virus (CAEV) in goats or ovine progressive pneumonia virus (OPPV) in sheep. The cut-off values for this test are as follows:

Negative: % Inhibition < 35%

Positive: % Inhibition >= 35%
